Product Description

Survival knife BUSHMEN BROTHER its a strong and durable Full-tang construction fix blade knife. It's made of high carbon steel 7Cr17Mov – it's a good balance between long last sharp blade and simplicity of sharpening. Wide (4 mm), drop-point type blade has slightly concave cut – it secures high durability of the blade with the perfect sharpness of the cuttin edge. On the back of the blade there is an thumb crimp that helps precise carvings.

There is an characteristic sharp concave on the end of the crimp – it's a firestarter striker.

A double injection process of (hard and soft polymers) creates the best antislipp, all-weather/temperature, textured handle surface.

The handle is comfortably shaped and the optimally sized finger grooves help to provide grip confidence equally well for large and small hands.

Forefinger groove perfectly protects hand during the hard work. The handle is additionally supplied with the lanyard hole and the pummel.

Survival knife BUSHMEN BROTHER knife come with their own high strength nylon fabric belt sheath for convenient, comfortable carry.
