Product Description

Multi tool MARLIN – It's a multi tool designed for precise working (eg. fishing). Long and thin tools makes multi tool MARLIN very light, so they are convenient to keep it in the pocket. Smart location of the tools makes they are always and easy available even when piler is folded.

When piler is open tools are hidden at the back side of the handle so the grip is strong and comfortable when in use. The working part of the tool (eg blade of the knife) when open is in line with the lower part of the handle.

All of the tool are supplied with the safety tool lock. Its automatically indicated when the tool is fully opened. To close the tool the seared part of the lock (at the bottom part of the handle) must be pulled, then the tool can be closed.

Piler

Long, slightly curved piler is very convenient in precise use, thanks to the shape they don't obstruct the view even when you have to work in the hard to reach places. (for example when you have to remove hooks form the fish mouth). Additionally the piler have the wire cutter and special weight squeezer.

Blades

Two baldes – Plain long and thin – filet knife – characteristic blade for multi tool MARLIN

seared one for hard use, additionally saw to cut wood and scratch eg. fishes.

Blades and all of the other tools have special indentation for easy operation.

Jack and owl

Special tool designed to untie fishing lines and tipwires

Screwdrivers

3 screwdrivers – three flat ones (medium & small) and the small philips screwdriver.

Openers

Two openers – can and bottle
