TriplePower LED emits up to 150 lumens (at full mode) of warm, bright-light.

### Product Description

#### Lamp Pearl

Lamp Pearl – this durable, water resistant, compact lamp is an ideal choice for campsites, vehicles and table-top illumination.

TriplePower LED emits up to 150 lumens (at full mode) of warm, bright-light.

Maximum working time\* provides the light up to 80H of continues work.

The Lamp Pearl works in 5 different modes:

Full power – LED emits up to 150 lumens

Middle power – LED emits up to 80 lumens

Low power – LED emits up to 35 lumens

Strobe – full power strobe light

SOS – full power SOS (Morse code) signal

It is easy to change the mode – just push the button on the backside of the lamp to chose the desired one.

The Camp Lamp Pearl floats on the water and is water resistant (IP 64), so it can be used outdoors in any weather conditions.

Collapsible carabiner / hang loop makes it easy to hang in a tent, on a branch or – thanks to a built-in magnet – attach to any metal surface (for example in the car).

Pocket size, water resistance, collapsible carabiner and multimode system make the Pearl Lamp the best choice.

\* Working time test done base on 3 new alkaline batteries, at 20 C and low lighting mode.

It works with 3 AAA batteries (NOT included)
